

Keynote Speaker – Dave Davis, MBA, PMP, PgMP
Current Leaders and Their Thoughts on Leadership:
Colin Powell, Nelson Mandella, and Ruth Moeller
Keynote Presentation: 8:15 AM – 9:30 AM

Dave Davis is first and foremost a practitioner of project and program management. Dave's credentials include certifications as a Project Management Professional (PMP), a Program Management Professional (PgMP), ITIL Foundations, and a Six Sigma Green Belt. 20+ years experience in project management, and an accredited educator. He is a past Chairman of the PMI eBusiness SIG, and a member of the PMI PMO SIG. He has worked in a variety of organizations and is currently program managing a customer implementation portfolio for AT&T eBusiness Organization.

Steve Duncanson PMP
Leadership - The Inside Story

Stephen P. Duncanson ("Steve") is the president of his own company, True Destiny Communications; where his primary focus is leadership training, personal development and what he calls, "motivational teaching". In addition, he is the co-author of the book; "Unleash the Leader within You", a member of the Les Brown Speaker's Bureau, an affiliate of The Institute 4 Increased Productivity (I4IP), as well as a highly sought-after corporate trainer with one of the largest professional development seminar companies in the world.

Patricia Mooney, MBA, PMP
Project Management Office

Trish Mooney started with Excellus BlueCross BlueShield in March 2005 where she designed and implemented the Excellus Enterprise PMO. The Enterprise PMO is a centralized business unit that provides governance and guidance to projects and programs to promote efficiency and quality. The Excellus PMO is responsible for portfolio management, resource management, executive reporting, project governance, mentoring, methodology, project management tools and training.

Audrey Pantas, MBA, CISSP, CISM, PMP
Project Management Office

Audrey Pantas is responsible for the Enterprise PMO for Xerox Information Management. This office was established in 2009 to improve efficiency and effectiveness of Information Management programs.

Previously, Audrey was the Director, Information Security and Risk Management Office at Xerox Corporation. She was named to this position in December 2003. She held worldwide responsibility for establishing and maintaining a risk management program that safeguards and sustains the company's vast information assets.

Brian Bozzuto, CSP, PMP
Management Techniques for an Agile Project Manager

Brian Bozzuto is a Senior Consultant and Agile Coach at BigVisible Solutions. With an extensive background in financial service & insurance companies, such as Fidelity Investments, Bank of America, Harvard Pilgrim, and Investor's Bank & Trust, he has worked with organizations using various process frameworks including Scrum, Six Sigma, RUP, and CMMi. Brian has been involved with organizational process improvement for 7 years working first internally as a project manager and now as a consultant. His current focus is working directly with teams, helping them adopt techniques like Scrum and eXtreme Programming.

Alan Uthman, Ph.D, PMP
Strategic Portfolio Analysis Use of Planview

Alan Uthman has extensive experience as a program manager at Kodak implementing global IT systems for R&D, manufacturing and IT infrastructure. Uthman is responsible for developing and managing the processes for preliminary project planning and portfolio planning at Carestream Health. Prior to his IT career, Alan was a scientist specializing in laboratory automation and chemical information systems for research and manufacturing.

Cindy Donovan, PMP
Strategic Portfolio Analysis Use of Planview

Cindy Donovan is responsible for establishing the IT PMO with charter to drive integration of portfolio, project, resource, and financial information to ensure optimal delivery of IT Products and Services aligned

with business need. She's also responsible for driving standards and quality for project governance (oversight and metrics), PM methodology and Project Manager competencies.

Christine Zust, MA
Management Techniques for an Agile Project Manager

Christine Zust works with people who want to enhance their communication effectiveness and professional success, and with companies to develop more productive leaders and teams. She has more than 30 years of experience in strategic communication, positioning, planning and leadership. Ms. Zust works with executives, emerging leaders and management teams to develop credibility and clout with key clients, customers and constituents.

Tom Watson, MS
Leadership

Tom Watson was a corporate executive with over 30 years of experience and led several multi-national organizations and start-up companies in Asia. Most recently he was the President for the Asia Pacific Region of Kodak Polychrome Graphics (KPG), a Kodak affiliated company doing business in the commercial printing industry, and headed up this company from its start up in 1998, moving it from an initial loss position to one of being a major contributor to the returns of KPG world wide.

Don Pillittere, MBA
The 4 P's of Project Management

Donald Pillittere is an accomplished manager with proven success in developing and implementing long-term strategic vision to achieve profitability. His leadership has enhanced profit performance in a variety of disciplines by both increasing sales and significantly reducing expenses, without sacrificing quality or customer satisfaction. These results have been achieved while simultaneously beating time-to-market deadlines.

Tom Mattus, MBA
Managing Virtual Teams

Tom Mattus is the president and founder of Successful Strategies International, Inc. (SSI). For over ten years, SSI has been a successful training, leadership and mentoring organization that specializes in Project Management and Leadership Development.

As a corporate officer of SSI, American Express and other training companies, Tom has worked with such Fortune 1000 companies as Johnson & Johnson Worldwide, L-3 Communications and many others to help resolve their project management and leadership needs, thus improving quality and performance.

Steven Tylock
Linked-in Personal Trainer

Steven Tylock, Author of "The LinkedIn Personal Trainer", provides introductory, enhanced, and personal training sessions on LinkedIn, the world's #1 business networking site with well over 50 million members.

When not busy with LinkedIn, Steve consults in organizations looking to turn around their information technology environment - needing help making the right technology connections. His experiences run the gamut from small to large businesses, education to manufacturing, office to product development, and private to government.

Jennifer Whitt
Best Practices to Build Better Relationships & Productive Teams

Jennifer Whitt, for almost twenty years has tackled the challenges that come with leading teams and managing multimillion-dollar projects. Drawing from her extensive experience and working with a highly qualified team of experts, Jennifer refined her techniques into proven and practical life skill principles, which can be applied to virtually any situation in life. She teaches these principles with keynotes, seminars, workshops, and roundtable discussions.

Jennifer is president of Optimo, Inc., a consulting firm specializing project management and leadership development.
